

Demonstration of Proposed Features

Date	1 July 2026
Team ID	XXXXXXX
Project Name	Credit Card Approval Prediction
Maximum Marks	1 Mark

Demonstration of Proposed Features:

The key features developed in this project are proposed during the project planning phase and successfully implemented. Each feature is demonstrated below along with its implementation status and remarks to help in the holistic evaluation of the project solution.

S.No.	Feature Name	Description	Status (Implemented / Partial / Pending)	Demonstration (Yes / No)	Remarks
1	User Authentication	Secure user registration and login system for accessing the application.	Implemented	Yes	Core functionality working as expected.
2	Applicant Input Form	Accepts applicant details such as income, employment, credit history, age, and other relevant factors.	Implemented	Yes	User-friendly interface developed.
3	Machine Learning Model Integration	Integrates the trained ML model to predict credit card approval status.	Implemented	Yes	Model loaded and prediction working correctly.
4	Prediction Result Display	Displays the recommended decision (Approved / Rejected) to the user.	Implemented	Yes	Results shown properly after prediction.
5	Input Validation	Validates user inputs and prevents invalid or empty submissions.	Implemented	Yes	Improves application reliability.

6	Responsive Web Interface	Provides a clean and responsive interface using HTML, CSS, and Bootstrap.	Implemented	Yes	Compatible with desktop and mobile browsers.
